RIVERSIDE HOMESTEAD ASSOCIATION

Association of whose organization we gave out a few days since is now ready to dispose of shares. As it is with no exception (the Homestead Association) the pioneer or on of that kind in the city, it may be ugh to state what are its purposes and ner in which it is proposed to conduct its ns. The purposes of these Homestead tions are not at all speculative in the sense of the word. They are dependent profits of their investment upon the natuance in the value of their lands consepon the co operation of many individuals holders and ... upon values of all ion and demand for room outside of, but ar the city. The Riverside Homestead tion has a fraction over one hundred and acres of land situated just south of on the east side of the river the near dary line being about one mile from the nding at East Portland. The tract lies up along the Wallamet river half a mile and another strip along the Oregon and his railroad half a mile in length, the two being connected near the middle by two blocks (with a street between them,) the forming a figure not unlike the letter H, vided into 74 blocks 200 feet square (with running at right angles) and 80 fractional along the river front. The shares are worth $60 per share. It will be seen that thus represents nearly a lot with an undinterest in the 80 fractional lots. The 80 fracshares are to be sold off at the proper time benefit of the Association shareholders in for the proceeds in proportion to the of shares held. When all shares are and the Association shall deterdo do it, the choice of lots and blocks be put up at auction to the highest the proceeds of such sales after deducting ginal price of shares or lots to be divided among the whole number of shares. If a person wants a particular lot or block, willing to pay $100 or $500 premium (more as the case may be) he pays it and takes or block as his individual property the m being divided among the whole number reholders. It will be seen, therefore, that bing is co operative and all interests mu. No man can make a dollar out of it without making a dollar for every other equal older. There is no chance for loss, unless perty by some chance should depreciate ow the first actual cost. Whether this is to happen in the case of this particular f land must be judged by each for himself, nsidering the steady and unprecedented ad on real estate in this city and neighbor and at East Portland and vicinity for the ear or two it seems hardly possible for to go back

he Riverside Association all proper precautem to have been taken to guard against olies of shares. No person is allowed to ore than the number of shares representing blocks, or twenty four lots and votes doing the operations of the Association are ed in the same manner. The buyers of may pay down $60 per share, which will them from all assessments or they may 5 quarterly with an assessment of $3 per payable with the first installment, being in this latter case to another (and only one assessment of $3 per share. Upon the nt of the shares in full with the assessments e, the holder is entitled to his certificate proportion of all the profits accrued from rces. No officer of the Association receives ay for services except the Secretary, who 25 per month so it will be seen that the es must be light

part of the tract lying along the river is plateau nearly level about 60 to 90 feet the water. There is no part of the front blocks but commands a splendid view of d and the river for miles up and down. That part of the tract lying along the d is, every foot of it of the richest loam d adapted to gardening purposes. A beautiful little stream of pure water runs through the entire length of this wing of the tract, ng the means of irrigation and power sufto supply pure water to every part of the tract. There is not a waste lot or fractional the entire tract. Under all these advanit would seem impossible that there should chance of loss to shareholders. Within a ch shareholder if he choose may get a title to as many lots as his shares may nt or he may continue his interest undiwith the Association while the organizay exist — Oregonian.

RIVERSIDE HOMESTEAD ASSOCIATION.

ave been led to make these remarks from the the subject of making homesteads on the outf this city and East Portland is being thoroughly d here among all classes and one body — ide " just south of East Portland—has already tablished. The site selected is a tract of land lyttle over a mile south of the ferry landing. It is like the letter H one side of which, a half mile h, borders on the river

his portion of the homestead which is elevated ife above the other prong of the H, but is still fifty feet above the river can be had an extens of Portland, East Portland the shipping, and ametto river for several miles. The land is very d is partly covered with light fir timber. A land just wide enough for two rows of blocks venue between them connects the west prong which has already been described with that a This last tract of land is in a beautiful little which is now under a high state of cultivation. ts whole length runs a trout brook, the water is clear as crystal. With a hydraulic ram the on proposes to have water conveyed through every portion of the homestead.—Daily Bulletin.

General Election News:

CHICAGO Nov 8.—Election returns thus far received are as follows. New York has gone Democratic beyond doubt even the Tribune giving up hope. In the city the vote was large as usual though greatest precautions were taken against repeating and other fraudulent voting which should have diminished the total about 20 000 but on the other hand the safeguards offered to legal voters brought out a class who have hitherto refrained from taking part in elections and swelled the total to one hundred and sixteen thousand. In the State of New York the Democrats elect 15 and the Republicans 16 members of Congress

In Massachusetts Wendell Phillips has not polled the vote conceded by his opponents. Claflin (Rep) has a majority of eight thousand

A Manifesto from Favre

LONDON Nov 9.—News by balloon dispatches from Paris are to the 8th. Favre had issued a circular to the representatives of France in foreign countries assuring them that Prussia must assume the responsibility of rejecting propositions for an armistice. Prussia proves anew says Favre, in rejecting an armistice that she makes war for personal aims merely and not for the interests of Germany. Nothing can apparently induce her to relinquish the pretext of French refusal to cede her provinces to Prussia. She seeks our destruction and will be satisfied with nothing less

Favre then proceeds to lay before the Ambassadors a detailed account of negotiations between Bismarck and Thiers for an armistice and shows what he regards the unreasonable demands of the Prussians. He says the Prussians since the fall of the Empire, have twice refused to listen to overtures for peace emanating from France. Now, however after Paris has been besieged for fifty days without showing any signs of weakness Prussia seems disposed to negotiate. The Parisians in consequence of the breaking out of a rebellion within the city have created a Government of Defence which neutral powers of Europe ought to recognise as rightful. Prussia had already recognized that Government. Favre says that negotiations for an armistice were interrupted by the refusal of the Germans re ... Paris during the term of armistice. He says he argued with the German authorities in favor of the necessity and propriety of such concession. An armistice would be no armistice at all but continued war. The proposition was therefore rejected and negotiations were then brought to a close, because they clearly showed that Prussia was seeking to destroy the French army and was anxious to destroy the French people. She would now subject non combatants of Paris to the horrors of famine. The neutral powers of Europe had demanded that an opportunity be had for the assembling of French deputies in order that the question of peace might be considered. This demand has been denied by Prussia, or practically denied by being clogged with impossible conditions. Prussian charges that the absence of a French Government obliges her to starve Paris are false. Prussian negotiations which begun with respect for the French people, close with a refusal for an opportunity to hear them

Favre concludes. An armistice is the only means hereby an expression of the French people on the consequences of the Imperial crime can be obtained. Prussia practically asks us to lay down our arms as a preliminary to a consultation of the national will and that the population of Paris men, women and children, shall starve, pending the vote. We will call out justice to witness against them hoping if convicted it will condemn them. Government will faithfully attempt to render peace possible and in that she will have the co operation of the army of Paris. Meanwhile Paris calls to arms!

NEW YORK Nov ... A Tribune special at Versailles writing on the 5th says. In military circles Thiers mission was never seriously thought of. A guard was required for his protection and finally he left the city with an escort of cavalry

The Aurora Borealis.

[From the New York Times, Oct. 27.]

Closely following the earthquake, we have been visited with an auroral display of an unusually beautiful character. The exhibition which has been widely observed throughout the country has continued for several nights, but was most brilliant in this vicinity on Monday night and Tuesday morning. In some places it has been diversified by meteors, one of which is reported at Concord, N. H., on Sunday morning. This passed over the town of Enfield from northeast to southwest and is described as having been larger than a cart-wheel and to have been of most vivid colors. It dropped into what is called Shaker Pond, and the spectators say that its sulphurous trail was visible for fifteen minutes after it fell. Reports from Cleveland and Cincinnati, dated Oct 24 announce a splendid display of aurora at both cities, on the same morning at 5 o'clock

The peculiarity of all these displays, like that at New York consisted in the bright crimson hue of the spurs or lances of light. Sometimes indeed, the coloring changed to a uniform dull red, as if it had been the ... of a vast but distant conflagration, but the ruddy spears of flame would soon return, and easily realize to the imagination the fears of by gone generations who saw in the "fellows to these strange sights—

> "Fierce fiery warriors fight upon the clouds
> In ranks and squadrons, and right form of war."

The spectacle, too, precisely recalled the earliest account we possess of such phenomena—that by Aristotle who speaks of it as resembling flame mingled with smoke, seen on calm nights, or like burning stubble seen afar off and presenting purple, bright red and blood-colored hues. It likewise brought to mind the memorable sights once seen over Jerusalem and which Croly in his Salathiel so powerfully amplifies from Holy Writ.

Modern science has suggested without conclusively proving various causes for the aurora but the frequent and harmless recurrence of the displays, their common characteristics and the explanation of this once mysterious natural phenomena prevent the northern lights from longer exciting fear. Of the various solutions that of Prof. Olmsted is perhaps the most plausible. He considers the aurora to be due to nebulous matter like that which furnishes material for meteoric showers, or the zodiacal light. The light, he thinks, is caused by the friction of the earth in plunging with its atmosphere through this matter which being partly metallic ... gives rise to the concomitant magnetic phenomena. Like other theories on the subject this is open to objections, although possibly to fewer than the rest. A theory which shall be accompanied by absolute demonstration is yet to be discovered.

THE SUEZ CANAL.—Commodore L. A. Beardslee commanding the U. S. steamer Palos which was the first United States vessel to pass through the Suez Canal, sends a long report of the trip to the Bureau of Navigation. After giving the details of the passage of the Canal he sums up as follows

The Canal for its entire length has a nearly level floor with from twenty four to twenty ... feet water. This floor is seventy two feet wide. On each side of the floor the section slopes so that at nineteen feet from the twenty six feet depth there is sixteen feet of water. Thus a vessel drawing under sixteen feet of water has a channel one hundred and ten feet in width

In the narrow parts of the Canal the seventy two feet floor is carried out, but there is less width of the shoal water. Good pilots are furnished and it is the regulation that they shall be employed. The Canal dues are ten francs per ton register

In conclusion any vessel not drawing over twenty two feet of water and capable of quick steerage can go through the Suez Canal with safety

One of our large Pacific mail steamers, say the ..., which is, I believe eighty feet wide outside of the wheels would find water enough and width enough provided the Canal were cleared for her passage. Whether she could go slowly enough or steer quickly enough I cannot judge but I believe that it is passable for her to go through liable of course to constant risks

A steamer could coal at Port Said as the coal here is seventeen shillings a ton cheaper than at Suez, and the facilities for putting it on board are much better

The straight courses in the Canal furnish excellent opportunities for a vessel to examine the local deviations of its compasses, as the courses here are nearly the same as are steered in the narrow parts of the Red Sea

The Eastern Elections

The general result of the elections as indicated by the meager dispatches that reach us, shows a diminution of Republican majorities as compared with the results of 1868 but the Republicans have not met with any serious reverse and will have in the next Congress as large a majority as any party ought to desire. A few Congressmen are lost in some of the States as we expected but the Democrats have not made anything like the gains they counted on.

The aggregate vote in New York City is stated at one hundred and sixteen thousand which is forty thousand less than when Hoffman was first elected in 1868. It seems probable, therefore that there was not so lively a business in "repeating" on Tuesday as there has been heretofore and that the enforcement of the law of Congress has cut down the fraudulent Democratic majority by at least twenty thousand. But the Democrats nevertheless, carry the State as was generally anticipated. No doubt the vote in the interior is small. The Republicans lose three members of Congress in the State, on account of dissensions in several districts, where more than one Republican candidate was in the field. Hoffman's success in this election makes him the Democratic candidate for President in 1872.

The present has been a somewhat perilous year for the Republican party, on account of the general apathy in regard to political matters but on the whole the Republicans have got through the elections with satisfactory success, and have no reason to complain. In the next general elections, the Presidential year, they will be fully awake and in earnest again, and the old majorities will be repeated. A few Democratic gains here and there on a light vote signify nothing. When a full vote is called out the result will be as in 1868. Meantime, having a good majority in Congress and being secure as regards the future, the Republicans have every reason to be satisfied. No doubt we shall hear much about "great Democratic gains." But did anybody ever know of an election since Buchanan went out of office, in which they have not made great gains, according to the arithmetic of their veracious organs? They are always gaining largely, but somehow they never come any nearer office and power.

Party Alliance with Powerful Corporations

In an article on the future of American politics, the New York *Herald* observes that the great and rapidly growing power of railroad interests is destined to exert a vast influence in our political system. "The capital invested in our railroads," says that paper, "approaches the amount of the national debt, and the gross income from them swells up to hundreds of millions annually. The power this vast sum gives, if concentrated is greater than that of the federal government itself. Talk of the power of the old United States Bank, or even of the existence of National Banks, that is small in comparison. Then look at the thousands upon thousands of employes, contractors and agents of these railroads, together with those pecuniarily interested in them and it will be seen at once what an influence they have in elections and over legislation."

The *Herald* then proceeds to show that the Democratic managers in New York, who stand at the head of the Democratic organization throughout the United States, have already formed powerful alliances with the chief railways in the State of New York, and are using every effort to extend these alliances, so as to form combinations which shall include all the great States, and carry the Democratic party into power, with Tammany at its head. This is the way in which the *Herald* puts the case:

Our Tammany leaders, with their usual tact are advancing in this movement. They have captured already two great lines of railroad which center at this city—the Erie and New York Central. Jay Gould, Fisk and Vanderbilt find it to their interest to be in the same boat with Tweed, Sweeny, Hall and other Tammany magnates, and the latter gladly accept the powerful aid of the railroad kings for political ends. While the Republicans are floundering about in uncertainty, having nothing to look for the future but the personal popularity of General Grant, and while they are spending their strength in abuse of Tammany, the Democratic leaders are quietly grasping a power—the railroad power—which will secure to them the State, with all its spoils and lay the foundation for a more extended influence in the Republic. Nor will such a combination of railroad chiefs and interests with political parties be limited to New York. It will extend throughout the country. But New York being the center of railroad concentration and wealth, and the two great trunk lines of Erie and the Central being already in alliance with the Tammany leaders here, the Democrats have the best prospect of using this new and mighty power throughout the greater part of the country for their ascendancy hereafter.

Thus we see that at the East the Democratic party is allying itself to powerful corporations, and endeavoring by this method to obtain control of the whole country. It is indisputable that it is by these agencies coupled with illegal voting and the corrupt use of large sums of money that it has been enabled to triumph heretofore in the State of New York. All its strength is built on its alliance with powerful corporations who furnish it money and material aid in elections for the purpose of securing such legislation as they desire. Facts like these will do to set off against the empty but persistent accusations of Democratic organs, that the Republican party supports, and in turn is supported by great corporations, who use the influence they thus acquire to feed the lust of power in politicians, and to enable railroad rings to amass greater wealth and to plunder the mass of the people. This is an indictment that will stand against the Democratic party but not against the Republican.

Begging the Question

The *Herald*, knowing that the robbery of the school fund is *per se*, utterly indefensible and withal very damaging to the party which perpetrated it resorts to many devices to call away public attention from the odious features of the transaction. The latest effort of that paper is an article written to show the immense importance of the proposed work at Willamette falls and the great advantages which will accrue to the people of the whole valley from them. This, however is not the question at issue. Nobody denies that the construction of a canal and locks at the falls would be advantageous to the material interests of the State. But it is also popularly supposed that the education of the young is a useful and desirable object and that the preservation of the fund for that purpose which the Constitution sets apart for it, is even more important and desirable than the construction of locks for the improvement of navigation. It is not against the opening of Willamette falls that we protest. We protest against a robbery of the school fund for that or any other purpose. Besides, if the question is to be put simply on its merits as a proposition to open Willamette falls why was not the lower bid of a responsible company considered, and nearly half of the appropriation saved? The proposition then as it [illegible] most emphatically [illegible] two years hence the same ring will be ready to take the rest of the school fund and what ever else they can lay their hands on.

The late Legislature carried out the Democratic idea of "retrenchment" for the benefit of the State Printer by grossly violating the Constitution. That instrument provides that the emoluments of the Printer shall not be increased during the term for which he may be elected. Yet the Legislature has passed an act to give the Printer about twenty times more money for printing the session laws in a new paper than was ever given to a Printer before. And of course that official will draw the money. Being authorized by the Legislature to plunder the Treasury in this unconstitutional manner, it may well be supposed that he will not be reluctant to do it. Hereafter how forcibly the *Herald* can talk on its favorite topic—retrenchment.

The rooms heretofore occupied by the Common Council have been taken, we understand, for police headquarters under the new *regime*. This will entail an expense of $75 to $100 per month on the taxpayers from which they have heretofore been exempt. But then the city is largely Republican, so that "Radicals" will be obliged to pay most of the expense. The increased cost of the police under the new arrangement is certain to be large but the people of Portland can afford to pay for having the right of self government wrested from them, the officials chosen by themselves legislated out of office and creatures of the Governor's placed in comfortable positions. All this is so very democratic and don't cost anybody but the outraged people of Portland a single cent.

A London dispatch of November 4, states that the *Examiner* of that city notices that Bismarck assumes a much more friendly tone toward the United States than toward Great Britain, and comments with bitterness on the contrast.

OREGON.

From the Salem *Statesman*. Hon Ben Hayden late Speaker of the House, was in town yesterday on his way to Portland by rail. His business seemed principally to have a ride on the railroad a luxury he informed us he had never enjoyed, the reason being that they had never caught up with him before as he had always been ahead of them. The roads having chased him to the western verge, Ben has concluded to make friends with the critter and take a ride.

The Roseburg *Plaindealer* gives an account of the shipwreck of the propeller *Commodore*, at the mouth of the Coquille, on the 22d ult. This is the steamer whose entrance into the Coquille created so much hope and enthusiasm among the good people of that portion of Coos county. This was her second trip, and the attempt to enter was at low tide, when there was but little water on the bar. The Captain was warned of the danger and advised to wait until high tide. he, however, refused to do so, made the attempt to go in, struck a rock and sunk. Pohl & Co had about $3,000 worth of goods on board, which were seriously damaged, if not entirely ruined. Others also sustained losses.

From the Jacksonville *Sentinel*. Messrs Turner and Howard returned from their surveying expedition, on the upper waters of Rogue river, last Tuesday. They had been absent about six weeks, and surveyed the greater portions of Townships 32 and 33 south range 2 east. They report some 25 or 30 sections of these two townships as excellent grass land, and suitable in every way for stock raising. There are already some ten or eleven settlers there. They discovered several salt springs while engaged in their undertakings, one in particular was very salt. They experimented with a frying pan full of water from this spring and obtained as much as a tablespoonful of salt crystals from it.

From the Statesman of Thursday. The Commissioners to examine and audit the accounts of State officers and the Penitentiary met yesterday morning and organized by the choice of B F Burch, Chairman, R H Dearborn, Esq, was appointed Clerk, and Harry Wolf, Bailiff whose business it will be to summon witnesses, etc. The Commissioners proceeded to Portland yesterday afternoon where they will investigate the matter of the sale of the old penitentiary building which is made part of their duties. The Commission occupies the southeast room in Griswold's block second floor, where all business will be transacted. The members will return from Portland on Saturday morning. The business of this Commission interest many who are holders of suspended warrants, and they will do well to hand them in and have them registered by Mr Dearborn who will be found at any time between 9 A M and 4 P M, at the office of the Commission by which means they can know who are the present holders of the warrants many of which have been sold and transferred by the original holders.

The Sale of Arms by the Government

William Rapp, editor of the Baltimore *Wecker* in consequence of an attack from German Democratic papers wrote to S Wolfe of Washington, for explanation of the conduct of the administration in regard to the exportation of arms to France. The latter has replied as follows:

Your letter and an enclosure of an editorial of the New York *Staats Zeitung* have been received translated and laid before the President and Secretaries of the Treasury and War. They authorize me to say that no arms have been sold, knowingly to the agents of France or to American citizens acting for agents nor is it known officially or otherwise that the arms sold or advertised have been or will be sold to France, an agent of France desiring to purchase was not allowed to bid; that the sale of these arms is not of a recent date; that several sales were made since the close of our war, several hundreds of thousands of arms were sold to the Turkish Government long before the commencement of the German war; that this is no hasty or forced sale but the natural result of a policy long since conceived and adopted; that the export of arms cannot be denied to private American citizens—neither the laws of nations nor of this country can prevent it; that no partiality has been shown, and the Government has no knowledge where these arms are going beyond the sale to private citizens.

It seems to be the impression in London that the sudden zeal of the English government in behalf of peace is not wholly disinterested and that the Prussian officials are not averse to an outside pressure in favor of negotiations. It is dawning on the former that Germany may have some secret understanding with Russia which will enable the two latter powers to adjust all future European questions without the slightest reference to English interests, and that should Russia choose to take possession of the Dardanelles England will not have the powerful French alliance to resist the encroachment, which was so effectual fifteen years ago.

A Blow at Mormonism

From the San Francisco Chronicle.

Chief Justice McKean, of Utah Territory has successfully bearded the Mormon lion in his den. We are in receipt of his opinions in the matters of the legality of the impanelling of the Grand Jury by the United States Marshal, the question of jurisdiction between Charles H Hempstead, United States District Attorney and Zerubabel Snow the Mormon incumbent, and the naturalization of foreign born Mormons as American citizens. These opinions all breathe an antagonistic spirit to the institution of polygamy and a determination to enforce the authority of the United States throughout the Territory. The naturalization matter must be peculiarly galling to Brigham Young and his followers. The facts were these: Sanberg, a Swede and Horsley an Englishman applied for naturalization and as it must appear, to the satisfaction of the Court among other things that the applicants are men of good moral character attached to the principles of the Constitution of the United States, and well disposed to the good order and happiness of the same and as it was important to learn their views of the rights and duties of American citizens and whether or not they believed the Act of Congress prohibiting polygamy to be binding upon them the Court interrogated them accordingly. Sanberg answered in substance that he regarded it as in accordance with the laws of God for a man to have more than one wife at the same time and that if the laws of the country forbade it he regarded it as his duty to obey the laws of God rather than the laws of man. Horsley refused to answer and by his manner as well as by his words said in substance, that that was his own business and not the business of the Court. Judge McKean, after arguing that the practice of polygamy is inconsistent with good citizenship came to the conclusion that Sanberg satisfied "the Court that he was not a man of good moral character" and Horsley failed to satisfy the Court that he was a proper person to become a citizen, consequently both applications were rejected. Under this rule as a precedent, Mormons of foreign birth will be unable to acquire the rights of citizens. It is evident that the entering wedge destined to operate against the power of the Church of Latter Day Saints is already driven in to a considerable depth. A few more sturdy blows by the power of the Government and the disciples of Joe Smith will be compelled to retire discomfited, and another triumph for Christian civilization be recorded.

A Philadelphia cartman says of a district through which he drives: "If you run over a youngster in this ward, the folks don't say anything because they got more children than vittles for 'em but just run over goat or a pig, and blast me if a mob ain't after you in two minutes!"

IDAY MORNING, NOVEMBER 10, 1870.

CITY.

The Washington Guard and the Emmett Guard of this city, will each have a parade and inspection this evening, under the general charge of Brigadier Gen. O. F. Bell of the 1st Brigade Oregon Militia. These companies have been in existence for a longer time than perhaps any other in the State. The Washington Guard, particularly, has been organized for eight years, many of the present members being the men who answered to the first roll call. Capt. Mills, the present commanding officer, was the first Captain elected, and we believe he has held the position continuously ever since. With [illegible] to the Emmett Guard, a younger company, it may be said of the Washington Guard that it is the best drilled company organized in this State, and perhaps will rank, by comparison, among the first military companies on the Pacific coast. Its complete organization has never once been broken, and it has always been its spirit, that it has never failed to observe its stated parades, and has seldom missed its regular meetings for business or drill. We do not believe there is another company which can show so clear a record in this respect for so long a time. The Emmett Guard has, during its existence (a much shorter period) been as regular in complying with the requirements of the law and its organization, but it lacks much of the drill and experience which the older company has had. After the inspection and drill of the Washington Guard, there will be a social party at their Armory, which will, doubtless, be a very pleasant affair.

SPECULATION IN CHAMPAGNE.—Most people are aware that lately there has been quite a rise in the price of champagne wine, supposed to result from the existence of war between France and Prussia. On this subject we find the following from a well posted exchange: "We are inclined to regard the recent and sudden rise in the price of champagne wines as being a little [illegible]. A moderate advance was reasonably [illegible] from the Prussian invasion of France and occupation of the main champagne districts, but not to the extent which has already [illegible]. Information from that district is to the effect that the vintage has begun in champagne and promises to be remarkably abundant, with the assurance that the workmen are protected by the Prussian troops. Prussia does not war against private individuals, and her protection of the champagne district at once dispels all fear of damage to its interests. Nor has production been diminished. According to the [illegible] Fruit Reporter, the quantity of champagne imported into New York during the week ending October 12th, was 3,314 dozen. [illegible] long since swept by the locale of [illegible], which is now not only in possession, but being actually protected, but is actually productive. Speculative movements have been made before, while the result was doubtful. It is rather too late now, when the facts are known." The upward movement [illegible] to be forced and unnatural, [illegible] what is hoped, rather than upon that which really exists.

[illegible]—The docket of the Circuit Court for the approaching term is the longest on record in this State—three hundred and thirty cases, with a prospect for more.

The steamship California will sail for San Francisco at [illegible] o'clock to-morrow afternoon.

[illegible] P. Ihrie who arrived here by the last steamer, en route to Sitka to attend a court [illegible].

The telegraph wire has been down most of the past two days in consequence of the severe storm raging all along the coast. Last evening we had a few meagre dispatches.

The steamer U. S. Grant is lying at the Willamette Iron Works, undergoing repairs to her [illegible].

Notwithstanding the terrible storm raging yesterday, work on the railroad at Clinton's Point, just out of East Portland was prosecuted, without interruption.

The ship Edward James, up for Hong Kong, did not go off yesterday, in consequence of the south winds prevailing the entire day, making the passage of the river dangerous.

THEATRICAL.—At Oro Fino Theater last evening the Bates Company played "Ingomar" to a thin house, the weather being excessively damp. The only wonder was that anybody turned out on such an evening. The piece was well mounted, and the principal characters were ably sustained by Mr. Bates, Mrs. Bates and Mr. Vinson, Mr. Clinton also doing his part well. On the whole. As usual, Mr. Camp [illegible] in some of the most important parts, and but for the ready expedients of the [illegible] would have greatly marred the play.

[illegible] gave a private "soiree magic" at the [illegible] parlor, to about seventy five persons. He performed a considerable number of his usual tricks, occupying a small space of the parlor without the aid of a table, or any of the usual appliances used by [illegible]. His success in everything was wonderful and a more highly delighted audience never [illegible]. Mr. Bosco performed very [illegible] and his surpassing skill in even [illegible] we are accustomed to think we understand, deceives "the sharpest eye," and creates [illegible] where we had supposed there was no [illegible]. He is, without question, the very [illegible] that ever visited our city.

[illegible].—In consequence of the disagreement among the doctors as to the name of the [illegible] at Salem, by some called small pox, and by others chicken pox, the Statesman does not venture to call it by either name, but speaks of it as the "prevailing disease." That is certainly a way of steering clear of the medical Scylla on one side and the medical Charybdis on the other. Down this way we call it "small pox," and without any chattering of teeth or knocking of knees. What's in a name? The "prevailing disease" is no worse for being called small pox, nor any the less bad for being called [illegible]. It's only a sort of chicken-hearted small pox, anyway, and don't hurt much, called by whatever name you will.

LIBRARY ASSOCIATION LIBRARY.—Portland, Nov. 10th.—The following new books have been received: "[illegible]," by George Sand; "Faith Gartney's Girlhood;" "Literature of the English Language, [illegible]; "Hereditary Genius," by Francis Galton; "The Story of a Workingman's Life," by [illegible] Mason; "Valerie Aylmer," by C. Reid; "The Reign of Law," by the Duke of Argyle; "Little Women," first and second series; "Bar[illegible] Towers," by A. Trollope; "The Princess [illegible]," by Mrs. Urbino; "The Lady of the Ice," by [illegible] de Mille; "The Rob Roy on the Baltic," by Macgregor; "Origin of Civilization and the Primitive Condition of Man," by Sir J. Suffolk.

LECTURES ON EGYPT.—Prof. Wm. H. Hoisington, late of the Eastern States, arrived here by the last steamer, and proposes within a short time to deliver lectures on Ancient Egypt, giving an account of recently discovered hieroglyphics and the monumental records which contain them; the arts, sciences, manners, customs, institutions and religion of the ancient Egyptians prior to the time of Abraham and Moses, etc. We observe that the Chicago Tribune and other papers of Illinois, Wisconsin, etc., speak in terms of high commendation of the Professor's lectures.

SMALL POX SPREADING.—"Mr. Speaker" Ben. Hayden, who is in this city, informs us that some new cases of small pox, the Statesman's "prevailing disease," have lately been developed in Polk county. Mr. Odeneal from Corvallis, reports several cases "prevailing" in Benton county, and the Salem Statesman mentions several cases in Marion county since the adjournment of the Legislature. According to that paper, "Mr. Davenport had it while the Legislature was in session and Mrs. Davenport and another lady in the neighborhood now have it."

TO BEEF AND PORK RAISERS.—Mr. A. H. Johnson, the prince of Portland packers, wants all the prime quality of pork and beef in the country, for packing. Mr. Johnson pays liberally for good meats, and packs upon honor to sustain a well earned high reputation. Pork and beef raisers should consult his advertisement.

RAILROAD EXPRESS.—The Oregon and California Railroad Express is now prepared to carry letters as well as packages on both the daily trains, to and from all stations on the road. Letter envelopes may be procured of the messengers on the trains and of all the company's agents. Stamped envelopes, 50c each.

RETURNING HOME.—A private dispatch received by a gentleman of this city states that Rev. E. C. Anderson, Pastor of the First Baptist Church of Portland, had arrived in San Francisco, and would leave for home on the next steamer. Mr. Anderson is Superintendent of Public Schools for Multnomah county.

Financial Matters.

[From the San Francisco Commercial Herald, Nov. 4.]

That the sudden pressure brought to bear on the New York money market was the work of speculative manipulation has been demonstrated by the as suddenly returned ease. It is remarkable that the largest and wealthiest business community in the Union should be so thoroughly at the mercy of a comparatively few unscrupulous operators. Every one knew that very large amounts of idle capital were on the market, seeking investment; that there was no requirement for money, either from the West or from the South; that unusually large exports of cotton and other home products had been made; that there was not only no demand for gold abroad, but that foreign gold was flowing in; that large sums were in the National Treasury, and could be made available to a considerable extent—yet, with the full knowledge of all these salient facts, a few individuals, with the assistance of one or two prominent journals, managed to create a stringency, short-lived it is true, but still sufficiently marked to evoke surprise. It has been suggested that the large amounts of foreign capital, arrived since the Franco-Prussian war, would be immediately called back again on the restoration of peace. We hold a different opinion. But for that war, a large proportion of such funds would probably never have sought investment in American securities, other than those of the Government, but having come and reaped the reward of much higher interest than could possibly have been obtained from any European investment, and being in a country were the assurance of continued peace and abounding prosperity is undisturbed, we think it more likely that the larger portion will remain. Even upon the restoration of peace, it would require a long time before full confidence could be secured, and business made to resume its regular channels. The peace of Europe is at any time a matter of questionable duration. So many different and powerful nationalities, each ambitious and not overscrupulous, crowded closely together on a small continent, and in most instances only separated by artificial boundaries, speaking different languages and living under widely different laws and religions, with contending interests and clashing policies, offer no very strong assurances of lasting peace. These are facts of which European capitalists are well aware, and with the timidity natural to that class they would ponder a long time before removing their well-invested means from a prosperous and growing country, entirely free from such disturbing influences as those described.

We note that the enemies of the Administration are still occasionally howling at the steady cancellation of the Public Debt. Let it alone, now, say they; let the wealth of the country grow up around it, and the population increase until the per capita rate shall be only $23 58, instead of $62 50, a result which will be reached in thirty years, when the wealth of the country will be $423,000,000,000, and the population 106,000,000, provided we go on increasing at the same rate we have since 1790. But if their policy were acted on, at the end of thirty years we would still have a debt of $2,500,000,000, and still be paying $128,000,000 per annum for interest, whereas by cancelling the debt as fast as possible we are rapidly reducing the amount of interest, and abating taxation by just so much. Government has already been able to reduce the burden of taxation to the extent of $80,000,000 a year, and before half the thirty years shall have expired, the debt will be a thing of the past, and taxation reduced $128,000,000 more per annum; making a total reduction of $208,000,000. People have only to apply to the Administration the same policy they would adopt in the management of their private affairs to be well satisfied with the manner in which the public finances have been managed.

DISPLEASED.—The San Francisco Alta has this:

The Examiner is displeased with the appointment of Vaughan to the office of Governor of Utah. The unsophisticated reader might suppose that this displeasure was occasioned by the fact that Vaughan was once a rebel soldier; but, upon scanning our irascible contemporary's objections, we find that the Examiner is really pained because Vaughan did not always remain a rebel, but acted so sensibly towards the "Lost Cause," after it was finally lost, that Congress consented to remove his disabilities. To rebel, is, in the eyes of these impracticables, a noble thing, but to continue to be rebellious forever and ever, even though the rebellion itself be over, is much nobler. He who forsakes his sin is a worse man than the original sinner, according to this theory of living.

The Summer is past and Autumn is here,
The finest season throughout the whole year,
But the days grow cool, and all must prepare
For warmer Clothing in Winter to wear.

System run Down.

Persons often allow their systems to "run down," or rather run them down, by over-work, accompanied by a neglect of the proper means of invigoration. The result is what is called "GENERAL DEBILITY;" in other words, a failure and partial collapse of the physical forces, accompanied, usually, by great depression of spirits.

The best remedy in such cases is Hostetter's Stomach Bitters. Whether the state of exhaustion has been brought on by excessive physical labor, dissipation, anxiety of mind, exposure, or any other cause, the remedial effect of this great stomachic will be found equally prompt and certain. As a restorative, after severe sickness has prostrated the bodily and mental energies, it is pronounced, by competent medical authority, "THE BEST TONIC IN USE." If men were not foolishly careless about their health, and over confident in themselves, they would always, when engaged in any work that required great exertion, use corresponding means of sustaining their strength. For this purpose Hostetters Bitters are invaluable. All toilers should use them as an invigorant.

For those constantly employed in indoor occupations, especially in crowded workshops, they may be reckoned as the very best safeguard of health. Where there is a predisposition to constipation, or a tendency to biliousness, they may be truly said to be a specific for which there is no substitute.

OR
GOLDEN MEDICAL
DISCOVERY

This is the most thorough blood purifier yet discovered, and Cures all Humors from the worst Scrofula to a common Eruption. Pimples and Blotches on the face, and scaly or rough skin, which are such annoying blemishes to many young persons, yield to the use of a few bottles of this wonderful medicine. From one to eight bottles cure Salt Rheum, Erysipelas, Scald Head, Ring Worms, Boils, Scaly Eruptions of the Skin, Scrofula Sores, Ulcers and "Canker" in the Mouth and Stomach. It is a pure medicinal extract of native roots and plants, combining in harmony Nature's most sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick. It is a great restorer for the strength and vigor of the system. Those who are languid, sleepless, have nervous apprehensions or fears, or any of the affections symptomatic of weakness, will find convincing evidence of its restorative power upon trial. If you feel dull, drowsy, debilitated and despondent, have frequent Headaches, mouth tastes badly in the morning, irregular appetite and tongue coated, you are suffering from Torpid Liver or "Biliousness." In many cases of "Liver Complaint" only a part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal as it effects perfect cures, leaving the liver strengthened and healthy. For the cure of Habitual Constipation of the Bowels it is a never failing remedy, and those who have used it for this purpose are loud in its praise. In Bronchial, Throat and Lung Diseases, it has produced many truly remarkable cures, where other medicines had failed. Sold by druggists at $1 00 per bottle. Prepared at the Chemical Laboratory of R. APERIENT.

Health's Foaming "Elixir."—The volatile principle of the Seltzer Spa Water is lost in crossing the Atlantic. It reaches this country "stale, flat and unprofitable." But in TARRANT'S EFFERVESCENT SELTZER APERIENT, this matchless natural remedy for dyspepsia, biliousness and constipation is reproduced in all the sanitary perfection of the original Spa as freshly drawn, and drank foaming at the fountain side. It requires but an instant to improvise the delicious draught, and for all the disorders of the stomach, bowels and liver, prevalent at this season it is—in the opinion of our ablest physicians—a safe and admirable specific.

The Battle of Sedan.

A correspondent of an European paper gives the following account of the surrender at Sedan:

Marshal McMahon was brought in severely wounded, but perfectly self-possessed. He at once gave orders, in the presence of the Emperor, to Gen. Ducort that the troops should be immediately massed, and retreat upon Mezieres, and expressly directed that they should not accept battle. He further ordered that Gen. Ducort with a certain force should immediately occupy the heights which overlook Sedan. Measures were taken at once to carry out his instructions, when Gen. de Wimpffen appeared on the scene. He promptly addressed Gen. Ducort, saying, "I have undertaken the command of the army. Besides I am an older General than you, and I hold the position you are about to take to be entirely wrong. On the contrary, the troops must be commanded to advance directly." The order was given, and the advance was made, with what fatal results a few hours showed. It is but justice to Marshal McMahon to make known the accurate foresight he showed. The battle soon began at all points, and with intense vigor, especially on the side of the Prussians. Towards 11 o'clock Gen. de Wimpffen communicated to the Emperor that the French troops had the advantage in every direction. At this time shells were falling fast near and around the position occupied by the Emperor and his staff, but all escaped, so far, unhurt. Suddenly the Emperor perceived a French Brigade suffering fearfully from the fire of the enemy. The men fell like wheat battered by a storm. The Emperor asked an officer of artillery: '*D'ou viennent ces projectiles?*' No one knew. Soon after, another artillery officer answered: 'Sire, the balls which fall on them and us come from a new Prussian battery erected at a distance from here of 4,000 meters.' The Emperor was incredulous; he could not believe in their murderous effects at such a remote range. He, however, immediately ordered cannon to play upon this newly discovered battery, but to no purpose. The balls chiefly fell into the river Meuse, at a distance of only 1,500 meters! The Emperor then joined the division and marched steadily forward. Balls continued to fall near and around him, but he still remained untouched. There seems to be no doubt at present that he did expose himself at the moment with considerable courage. Again assured that the French troops were gaining advantages at all points, he said to his staff that he should return to Sedan to breakfast, and would remount his horse and take the field again in an hour. He had scarcely entered Sedan when he found soldiers flying in all directions utterly panic stricken. They rapidly filled the town. At that [illegible] time a [illegible] cannonade resounded in [illegible] McMahon [illegible] presence, had ordered to [illegible] the French troops, but [illegible] The [illegible] soldiers rushed in fright without arms, adding to the general confusion and wild terror. About 10 o'clock the Emperor, appalled by the enormous slaughter around him, and the bombardment at the same time increasing in force, summoned the members of his staff, and asked in simple language, "What is to be done?" All immediately decided in favor of capitulation, and the Emperor at once ordered Capt. Lauriston to mount the ramparts and hoist the white flag. The Emperor sat in the court yard of the Prefecture at the time the white flag was fixed upon the ramparts, his staff standing apart. His face was buried in his hands, and he appeared completely overwhelmed by the catastrophe, and equally perplexed. During the battle, owing to the severe disease from which he suffers, he was compelled to dismount several times, and moral prostration was now added to great physical fatigue.

In the merchandise market, we find a fair business transacted during the week, considering the lateness of the season and the extremely inclement weather. There are quite a number of buyers on the market from both the Willamette Valley and Eastern Oregon. In Hardware there is a perceptible improvement in the amount of trade. Quotations remain as heretofore. The announcement by the O. S. N. Co. of the early closing of steamboat navigation on the upper Columbia, has had the effect to hurry up shipments in that direction, not only in this, but other lines of goods. There have been some sales in dry goods lines to fill winter assortments of country merchants. Trade in agricultural goods is very quiet, the [illegible] of the week aggregate comparatively large for the [illegible]. Stocks in all lines are very heavy, and [illegible] complete.

There has been an advance of $4 to $5 in Champagne wines. Heidsieck is particularly firm at the advance.

Liverpool salt is held firmer, importers having advanced the price fully $2 50 ℘ ton.

In the produce and grain market we find a singular conflict of opinions. One firm quotes good white Wheat, for shipping purposes, at 90@95c; (we quoted last week 90c. this) another firm—a large buyer—furnishes the following note: "Wheat is again drooping; buyers here have reduced the price fully 5c., and are careless of [illegible] at the reduction." Upon a careful survey of the market, our quotations will be found very nearly correct. Choice white, for shipping purposes, including sacks, quotable at $1 12½ jobbing; buying prices, 90@95c. for choice white. The bark *Tordenskjold*, now loading by Corbitt & Macleay, for the English market, will be despatched next week with a full cargo. The jobbing price for lard in tins, has fallen to 14c ℘ lb., in kegs 13½ cents. All other prices are as last quoted. Good butter is scarce, and readily commands the quoted prices. Lard and Bacon dull, and tending to lower figures.

LAND DEPARTMENT
OREGON & CALIFORNIA RAILROAD
COMPANY.

SALEM, OREGON, October 22, 1870.

THE FOLLOWING STATEMENT IS MADE FOR information of all concerned:

First—Congress has granted to the Company all alternate sections of the public lands designated by odd numbers within a distance of thirty miles on each side of the railroad, excepting lands to which a pre-emption or homestead claim had attached prior to the withdrawal by Government of the lands co-terminus with the first division of located line from East Portland to Jefferson, at 12 M. February 18, 1870. The second division of located line from Jefferson to a point six miles south of Roseburg, May, 1870, and from the last named point to the California line, 1870.

Second—Persons who have valid pre-emption or homestead claims to any tract on an odd numbered section can purchase the same from the Railroad Company at the Government price of $1 25 per acre in greenbacks, and upon very favorable terms, if they so desire, by filing an abandonment of their claim in the U. S. Land Office, blanks for which will be furnished by the Land Agent of the Company. Such purchase from the Company has these advantages over a purchase from the Government. The party can leave the land if necessary; he can sell the land or mortgage it; he is saved the payment of lawyers' or agents' fees, and expenses of witnesses to go to the Land Office to "prove up" his claim, he can get his title perfect in less time, and he can buy on credit at a low rate of interest.

Third—No sales will be made by the Company until the land is listed over to it by the United States Land Commissioner and Secretary of the Interior.

Purchasers are thus assured that the title they obtain is perfect.

TO THE UNFORTUNATE.
NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating the disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactory to him that the was cured of the complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR J. F. GIBBON, 623 Kearney street, corner Commercial; (Private Entrance on Commercial) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER.

Consultations FREE.

This association of [illegible] an account a few days since [illegible] pose of shares. As it is [illegible] Portland Homestead Association [illegible] ganization of that kind in [illegible] well enough to state what are [illegible] the manner in which it is proposed [illegible] operations. The purposes of [illegible] Associations are not at all [illegible] dinary sense of the word [illegible] for the profits of their [illegible] ral advance in the value of [illegible] quent upon the co-operation [illegible] —shareholders—and the advance [illegible] surrounding lands by reason of [illegible] population and demand for [illegible] still near, the city. It will be [illegible] everything is [illegible] tual. No man can [illegible] out also making a [illegible] shareholder. There is [illegible] the property, by [illegible] far below the first [illegible] liable to happen in the [illegible] tract of land [illegible] but considering the steady and [illegible] vance on real estate in this [illegible] hood, and at East Portland [illegible] last year or two [illegible] values to go back. In the Riverside Association all [illegible] tions seem to have been [illegible] monopolies of shares.
